

# SHAREPOINT DEVELOPMENT PORTFOLIO

2021 - 2024

We Provide Best &  
Cost-Effective IT Solutions.

## The Gateway to Enhanced Collaboration

Considering a workplace where your team can easily collaborate to exchange ideas, documents, and knowledge in real-time, or workflow automation that eliminates manual work and allows your employees to focus on key projects? Microsoft SharePoint, a leading industry platform, is a winning solution toward achieving these goals.

SharePoint

# SharePoint

## Employee Portal

Leveraging SPFx, our Employee Portal grants easy document access and enables staff to request reimbursements and time off. The Admin Portal empowers administrators to efficiently manage benefits, respond to requests, and oversee company-wide information, fostering seamless communication and productivity.

## Old Age Home Management System

The old-age home system improves operational efficiency and resident care by tracking resident details and scheduling tours. It provides real-time insights and streamlines processes, allowing staff to provide personalized care and enhance the overall experience for residents and caregivers.

# SharePoint

## Work Program Agreement App

The OneBank WPA 360Analytics represents a quest for enhanced operational efficiency. Designed specifically to streamline the WPA sign-off process, this application merges web and mobile platforms, granting users flexible accessibility. Seamlessly integrating data from SharePoint lists enables it to manage a diverse range of data sets, from Employee

and Budget Data to the nuanced specifics of IOP and Project Data. With its advent, RDSA set a standard in utilizing technology to foster improved workflow and decision-making.

AFRICAN DEVELOPMENT BANK GROUP

## Survey App

Our property-focused project revolutionizes property survey processes. It efficiently manages multiple activities associated with each property, providing a comprehensive overview. Users can seamlessly navigate through survey tasks, ensuring a systematic and thorough examination of each property. This solution enhances property management with streamlined survey workflows.

# SharePoint

## Intranet

Our project for Queen Square Imaging Center Hospital involved crafting a dynamic intranet employee portal on SharePoint. Featuring a hub site structure, it seamlessly integrates department-specific sub-sites, providing a centralized platform for effective communication and collaboration. The portal enhances workflow efficiency and fosters interdepartmental connectivity within the hospital's digital ecosystem.

## Employee onboarding App

Our responsive Power Apps project offers a streamlined user experience. Users input their information on one screen, then transition to the next screen, dynamically fetching data from the database. Here, certain details are non-editable, providing data integrity, while others remain customizable.

The app also prompts users for additional company-required information, enhancing the completeness of user profiles.

# SharePoint

## HR Intranet Portal

This project involves creating an Intranet Portal tailored for HR purposes. It will centralize employee data management, streamline event organization, facilitate payroll processing, optimize resource management, and provide a secure repository for document storage.

## New Hire App

This PowerApp streamlines the new hire process by automating tasks. It sends emails to approvers for new hire approval, generates employee offer letters upon approval, and automatically sends them to the new hire's email address.

**We listen. We advise. We design, together.**

Happy customers & ongoing relationships are what we strive for. Success is measured by results, the most important being how our clients feel about their experience with us.

# THANK YOU

## FOR YOUR BUSINESS.

The foundation of our company is laid on the basic principle that "Our Clients are Our Partners" - this drives the organization to keep the focus towards continuous process and product improvement.
